I don't understand the naysayers on this DLC. It's an accurate representation of a small section of the German summer offensive of 1942 which eventually led to catastrophic defeat at Stalingrad. A lot can happen on this operation, and if you're the German player, get ready to encounter well dug-in Soviet infantry and heavy armor. It is by no means a "cake-walk" but a brutal tug of war we've come to expect from the Graviteam developers. I say, if you like GTOS you'll like this DLC and if you don't, then why the hell are you even checking this page out anyway? Go back and learn to appreciate the work of gaming art that is Graviteam Tactics. If you're even remotely interested in WW2 Eastern Front combat, you cannot go wrong with this series.

And then there's that steep learning curve to overcome, so yeah....there's that.. This game could give a pleasing experience if you somehow succeed to clog your ears up for the incredibly dull plotline and the obnoxious voice acting. Ragdoll is great though. I only recommend it to those who can't afford the real gem in this genre - XCOM.. I have been skiing for 25 years. This game gives me flashbacks of close calls from my youth when I would do jumps too big for me. The landings tell my brain to expect pressure on my knees so I overcompensate and neigh fall over- its a blast. All the fun of big jumps minus the pain. Its a VR favorite of all my skiier friends too.. i dont recommend this DLC. the missions are a joke.. Cool game in the future, what prevents it from being a black game at the moment are its controls, the controls are horrible, the camera is very bad, as a player I should not worry about turning my ship, just going to the sides up And down and shoot, the game is too expensive to have these confusing controls, and descontroled ship on space, and the bad camera, I waiting developer fix it.

You know a game that is just FUN to casually play.

. It's\u2665\u2665\u2665\u2665\u2665\u2665XD. Very very similar to Towerfall. But that's not a bad thing, because Towerfall is great.. A good game. But if you arent a real wargamer, and have no experience, you are going to shy away from it. Dont be intimidated. It is worth learning to play. All in all, a solid release from Ageod, from whom one expects greatness.. Very fun and good management game. A real Classic if I do say so myself!. The game is fun with friends and all, but not worth the full price. Good game if on a large sale.. its might be a good game, but it not friendly to me, especially for the terrible handling.
If you are addicted to crazy hard game, congratuation, you get it.
As for me , GUN.. though it is hard to use it at first but with enough research you can do so much with little programming. The new DLC sneaking suit, the one from Snake Eater, isn't showing up in the game just yet, presumably from some type of bug.
